Projects

Random Cocktail Generator

Got data from TheCocktailDB API using fetch to generate a random drink image and recipe.

Demo: <https://suspicious-mayer-98d19c.netlify.com/>

Code: <https://github.com/DonoKun/random-cocktail>

Tel's Barbershop Website

Website for a local barbershop in Santa Monica called Tel's Barbershop. CSS Flexbox was used to make the website responsive.

View site: <https://telsbarbershop.com/>

View code: <https://github.com/DonoKun/tels-barbershop>

helpkyoani.moe

Website made after an arsonist attacked Kyoto Animation studio. The goal for this website was to organize all the methods to help KyoAni without searching social media.

View site: <https://helpkyoani.moe/>

View code: <https://github.com/DonoKun/help-kyoani>
